

# VS | INVITATION

## LUX LIVE 2016 – 23-24 NOVEMBER – ExCeL LONDON

At Vossloh-Schwabe we strive to deliver the latest in innovative Smart Lighting Solutions and experiences. Highly efficient LED systems, combined with intelligent light control solutions and matching optic attachments to ensure optimum light distribution guarantee the right kind of light for almost any application when and where it's needed.

Discover the latest LED developments in LED optics, LED drivers and COB modules please visit us on **23rd and 24th November** at stand **K52** at this year's LUXlive.

Volker Neu, General Manager LED, is giving a presentation at LuxLive at 2.30pm on Wednesday 23rd in the Whitecroft Tech Theatre: **How to tune light for biological effects in niche applications**

We look forward to your visit and would also be happy to make a personal appointment with you ahead of time. Please contact us.
