

ANGSANA LAGUNA PHUKET HOTEL, THAILAND

Angsana Laguna Phuket Hotel is located in scenic Bang Tao Bay, Phuket's most coveted resort address. Just 20 minutes from bustling Phuket Town and the Phuket International Airport, lies the contemporary beachfront resort with unrivalled access to the emerald waters of the Andaman Sea.

Vossloh-Schwabe's highly efficient plug and play AluLED modules in various lengths were used as cove lighting to illuminate the ceiling homogeneously.

With long service life of up to 45,000 hours, even lighting output and low power consumption, AluLED effectively cut necessary maintenance costs and significantly reduced CO₂ emissions and counter greenhouse effect.

AluLED is ideal for indoor applications and the slim & flat design is extremely convenient for low profile lighting design mounting. It is available in neutral white (4000 K) with IP20 degree of protection and in warm white (3000 K) and cool white (6000 K) or RGB with IP64 degree of protection.
