

SENSUOUS ENCOUNTER

WINTERTHUR,
SWITZERLAND

+ monolicht

■ THE RIGHT LIGHT FOR ENJOYING WINE

The international Swiss Mövenpick Group is subdivided into four distinct areas of operation: hotels, restaurants, fine foods and wine.

The company's success story began when the first Mövenpick restaurant was opened in Zürich in July 1948. Today, the Mövenpick Group employs some 19,000 people.

One of the highlights of the premium brand are the Mövenpick wine cellars. And the first of now 12 wine cellars was opened in Germany more than 50 years ago. At the Mövenpick wine cellar in the Swiss town of Winterthur, for instance, modern lighting helps to present centuries of viticulture for guests to enjoy. To complement the cosy ambience of the wine cellar, spotlights made by the company Monolight featuring Vossloh-Schwabe COB LED modules serve to bathe these top-quality wines in atmospheric light. At a colour temperature of 4,000 K, sampling these excellent wines turns into a truly multisensory experience.

The fascinating light in Mövenpick's wine galleries perfectly rounds off this celebration of the senses. Furthermore, the sensitive light scenes enabled by VS give wine connoisseurs the pleasant feeling of being among friends.

VS LED products come with an impressive array of features:

- LUGA Shop COB PCB WU-M-461
 - Long service life: 50,000 h
 - Minimal decrease in luminous flux: L90/F10
 - Colour temperature: 4000 K
 - Colour rendering index CRI: Ra > 80
- Holder with bayonet fitting for easy and safe attachment
- 5-year warranty
